Tobacco Etch Virus Protease, Recombinant (His-Tag)

Cat. No. NATE-0922-1

Lot. No. (See product label)

Introduction

Description	TEV protease (EC 3.4.22.44, Tobacco Etch Virus nuclear-inclusion-a endopeptidase) is a highly sequence-specific cysteine protease from Tobacco Etch Virus (TEV).

Product Information

Form	Powder
EC Number	EC 3.4.22.44
Molecular Weight	28 Kda
Purity	>95%
Activity	250 U mg

Storage and Shipping Information

Storage	at -20℃
