

Tobacco Etch Virus Protease, Recombinant (His-Tag)

Cat. No. NATE-0922-1

Lot. No. (See product label)

Introduction

Description TEV protease (EC 3.4.22.44, Tobacco Etch Virus nuclear-inclusion-a endopeptidase) is a highly sequence-specific cysteine protease from Tobacco Etch Virus (TEV).

Product Information

Form Powder

EC Number EC 3.4.22.44

Molecular Weight 28 Kda

Purity >95%

Activity 250 U mg

Storage and Shipping Information

Storage at -20°C
