

Bovine Type II Collagen (Immunization Grade)

Cat. No. NATE-4923

Lot. No. (See product label)

Introduction

Description

Bovine Collagen Type II (Nasal Cartilage) is one of a family of proteins found particularly in the flesh and connective tissues of mammals (approximately one-third of the body's total protein). Over two dozen types of collagen have been described; Type II is found predominantly in hyaline cartilage (50% of the protein in hyaline is collagen type II) and is also found in the vitreous humor of the eye.

Synonyms

Type II collagen, collagen 2, bovine collagen, collagen protein Type II, bovine collagen Type II protein
