

## Chickpea Protein

*Cat. No. CPP-100*

*Lot. No. (See product label)*

### ***Introduction***

**Description** "Chickpea protein is obtained from chickpeas (*Cicer arietinum*) using different extraction processes. They can be based either on the isoelectric pH point, air classification, or on enzymatic treatment and separation. Chickpeas in their natural state contain 16–24% protein as well as starch, dietary fiber, iron, calcium and additional minerals."

### ***Product Information***

**Form** Powder
