

Inulin

Cat. No. EXTZ-114

Lot. No. (See product label)

Introduction

Description Inulin is a starchy substance found in a wide variety of fruits, vegetables, and herbs, including wheat, onions, bananas, leeks, artichokes, and asparagus. Chicory root is the main source of extraction for commercial production of inulin. It's considered a gut-healthy dietary fiber because it stays in the gut and helps certain good bacteria grow instead of being digested and absorbed by the stomach.
