Lavender extract powder

Cat. No. EXTZ-106

Lot. No. (See product label)

Introduction

Description	Lavender is a purple flower with a pleasant scent. It is used for restlessness, insomnia, nervousness, and depression. Some people add lavender to bathwater to treat circulation disorders and improve mental health. Lavender extract contains linalyl acetate, lavender linalool acetate, geraniol, coumarin and other ingredients. It has good antibacterial and scar reduction effects, and is mainly used in pharmaceuticals, food additives and cosmetics.
