

Lactobacillus johnsonii

Cat. No. PRBT-062

Lot. No. (See product label)

Introduction

Description Lactobacillus johnsonii are Gram-positive, facultatively anaerobic, non-motile bacteria that are part of the L. acidophilus group. Like other lactobacilli, L. johnsonii is considered as a GRAS (generally recognized as safe) microorganism and is regarded as a probiotic. Lactobacillus johnsonii is a member of the human health-associated gastrointestinal and vaginal mucosal microbiota.

Product Information

Appearance White to light yellow-free-flowing powder

Form powder

Activity 100 billion CFU/g

Stabilizers 24 Months

Storage and Shipping Information

Storage Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
