Creative Enzymes®

Probiotics blend for prevention and improvement of diarrhea

Cat. No. PRBT-068

Lot. No. (See product label)

Introduction

Description	Probiotics Blend of L. Paracasei, B. Breve, L. Helveticus, L. Plantarum, B. Lactis, L. Rhamnosus
Applications	Studies have shown that probiotics can inhibit the apoptosis of intestinal epithelial cells, promote the repair of tight junctions in intestinal cells, and improve the resistance to pathogens. In addition, probiotics can also produce bacteriostats, bacteriostatic polysaccharides, which can inhibit the growth of pathogenic bacteria, reduce the toxicity of pathogenic bacteria, and inhibit the spread of pathogenic bacteria.

Product Information

Appearance	White to light yellow-free-flowing powder
Form	powder
Activity	100 billion CFU/g or more
Stabilizers	24 Months

Storage and Shipping Information

Storage	Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
