

Probiotics blend for antioxidation of skin

Cat. No. PRBT-070

Lot. No. (See product label)

Introduction

Description Probiotics Blend of L. Casei, L. Reuteri, L. Gasseri, L. Salivarius, L. Johnsonii, L. Helveticus, L. Rhamnosus

Applications Studies have shown that probiotics are beneficial to the repair of skin damage caused by ultraviolet radiation, thus alleviating skin aging caused by light. Probiotics can alleviate skin inflammation by regulating intestinal flora, thus maintaining skin integrity and dynamic balance, and can also inhibit the production of melanin by pathogenic bacteria and melanoma cells.

Product Information

Appearance White to light yellow-free-flowing powder

Form powder

Activity 100 billion CFU/g or more

Stabilizers 24 Months

Storage and Shipping Information

Storage Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
