

Probiotics blend for improvement of skin inflammation

Cat. No. PRBT-071

Lot. No. (See product label)

Introduction

Description

Probiotics Blend of B. Lactis, L. Salivarius, S. Thermophilus, L. Acidophilus, L. Plantarum, L. Johnsonii, L. Rhamnosus, L. Reuteri, B. Longum, B. Bifidum

Applications

Probiotics have been reported to reduce allergic skin's sensitivity to physical or chemical stimuli and improve its ability to repair damage to the skin barrier. Supplementation of probiotics can not only reduce itching in patients with dermatitis, but also inhibit Th2 cell-led inflammation, thereby improving dermatitis symptoms.

Product Information

Appearance

White to light yellow-free-flowing powder

Form

powder

Activity

100 billion CFU/g or more

Stabilizers

24 Months

Storage and Shipping Information

Storage

Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
