Creative Enzymes®

Probiotics blend for caries protection

Cat. No. PRBT-074

Lot. No. (See product label)

Introduction

Description	Probiotics Blend of L. Salivarius, L. Plantarum, L. Casei, L. Reuteri, L. Rhamnosus
Applications	Probiotics have become the star components of oral health products due to their bacteriostatic and immunomodulatory ability. The surfactant and lipoic acid secreted by probiotics can inhibit the formation of pathogenic biofilm, thus inhibiting the expression of pathogenic virulence genes. In short, probiotics can prevent dental caries and improve oral health.

Product Information

Appearance	White to light yellow-free-flowing powder
Form	powder
Activity	100 billion CFU/g or more
Stabilizers	24 Months

Storage and Shipping Information

Storage	Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
