

## Probiotics blend for caries protection

Cat. No. PRBT-074

Lot. No. (See product label)

### Introduction

**Description** Probiotics Blend of L. Salivarius, L. Plantarum, L. Casei, L. Reuteri, L. Rhamnosus

**Applications** Probiotics have become the star components of oral health products due to their bacteriostatic and immunomodulatory ability. The surfactant and lipoic acid secreted by probiotics can inhibit the formation of pathogenic biofilm, thus inhibiting the expression of pathogenic virulence genes. In short, probiotics can prevent dental caries and improve oral health.

### Product Information

**Appearance** White to light yellow-free-flowing powder

**Form** powder

**Activity** 100 billion CFU/g or more

**Stabilizers** 24 Months

### Storage and Shipping Information

**Storage** Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
