

## White Corn Flour

*Cat. No. EXTZ-218*

*Lot. No.* (See product label)

### ***Introduction***

**Description** There are two types of cornmeal, yellow cornmeal and white cornmeal. White cornmeal is made by grinding white corn, which is lighter in color and less flavorful than yellow cornmeal. White cornmeal is a gluten-free alternative to white or wheat flour and can be used to thicken gravy or make tortillas and other baked goods.
