Creative Enzymes®

Saccharomyces cerevisiae

Cat. No. EXTZ-146

Lot. No. (See product label)

Introduction

Description	Saccharomyces cerevisiae is a species of yeast that has been instrumental in winemaking, baking, and brewing since ancient times. Because it is rich in complete protein, complete B vitamins, vitamin E, dietary fiber, zymosan, glutathione, and trace elements such as selenium, zinc, and chromium, Saccharomyces cerevisiae can also be used as a natural source of healthy nutrition
