

Human UGT1A6

Cat. No. NATZ-028

Lot. No. (See product label)

Introduction

Description Non-CYPs play an important role in the metabolism of many drugs. Non-CYP

enzymes including carboxylesterase (CES), aldehyde oxidase (AO), monoamine oxidase (MAO), flavin monooxygenase (FMO), alcohol/aldehyde dehydrogenase (ADH/ALDH), xanthine oxidase (XO), UDP glucuronosyl transferases (UGT) and

sulfotransferases (SULTs).

Product Information

Species Human

Source Escherichia coli

Form Liquid

EC Number EC 2.4.1.17

Concentration 10 mg/ml

Storage and Shipping Information

Storage - 80°C

Tel: 1-631-562-8517 1-516-512-3133 **Email:** info@creative-enzymes.com
