Creative Enzymes®

Human FMO-5

Cat. No. NATZ-038

Lot. No. (See product label)

Introduction

Description	Non-CYPs play an important role in the metabolism of many drugs. Non-CYP enzymes including carboxylesterase (CES), aldehyde oxidase (AO), monoamine oxidase (MAO), flavin monooxygenase (FMO), alcohol/aldehyde dehydrogenase (ADH/ALDH), xanthine oxidase (XO), UDP glucuronosyl transferases (UGT) and sulfotransferases (SULTs).

Product Information

Species	Human
Source	baculovirus infected insect cells
Form	Liquid
EC Number	EC 1.14.13.8
Molecular Weight	55-60 kDa

Storage and Shipping Information

Storage	– 80°C
