Rapidase extra fruit aroma

Cat. No. FJE-1026

Lot. No. (See product label)

Introduction

Description	Rapidase extra fruit aroma is a microgranulated pectolytic enzyme preparation with essential side activities. It allows for targeted extraction of fruity aroma precursors contained in red grape skins.
Applications	Enzyme for fast, early aroma precursor extraction in red grape maceration

Storage and Shipping Information

Storage	To be stored in a dry cool place between 5 and 15°C
