

Chamomile flowers extract

Cat. No. EXTZ-155

Lot. No. (See product label)

Introduction

Description

Chamomile is a hardy perennial with feathery, fragrant leaves and white, daisy-type flowers, loved by bees and other pollinators. It has been valued as a digestive relaxant and has been used to treat various gastrointestinal disturbances including flatulence, indigestion, diarrhea, anorexia, motion sickness, nausea, and vomiting.

Applications

It has calming, anti-inflammatory and antioxidant properties and can be used to soothe skin irritation, inflammation and redness. Chamomile extract is also commonly used in oral care products such as shampoos, conditioners and mouthwashes for its cleansing, soothing and antibacterial properties.

Product Information

Source

Flower
