Creative Enzymes®

Mung bean protein isolates

Cat. No. EXTZ-328

Lot. No. (See product label)

Introduction

Description	Mung beans are not only rich in nutritional value, but also rich in biologically active substances. Mung bean protein isolate has excellent functional properties such as solubility, water retention, emulsification, foaming, and foam stability. Protein drinks and products made from protein isolate not only have high nutritional value but also are of good quality and delicious taste, and are very popular among consumers.
