

Melissa Extract

Cat. No. EXTZ-425

Lot. No. (See product label)

Introduction

Description The melissa extract is a whole grass extract of the balm family plant, and the lemongrass oil is the active ingredient. Melissa extract is an herb that is found mainly in Europe and the Mediterranean region. It is occasionally used as a food flavoring agent, and melissa extract is often found in herbal teas. Several medicinal uses of the all-natural melissa extract have been discovered as well, and it is common in treatments for stress relief, aromatherapy, and especially sleep aids. In addition, melissa extract plays an important role in antioxidant, antitumor, antibacterial, and antiviral properties. In many countries, it has been widely used in various industrial sectors such as medicine, perfume, cosmetics, and food.
