Creative Enzymes®

Enzyme blend for animal protein hydrolysis

Cat. No. NATZ-079

Lot. No. (See product label)

Introduction

Description	Enzyme blend for animal protein hydrolysis comprises endoproteinase, exoprotease, flavor enzyme, etc. The endoproteinase and the exoprotease hydrolyze the protein into amino acids. Then the flavor enzyme optimizes the bitterness from hydrolysis. The blend can be widely used in the hydrolysis of animal proteins.

Product Information

Form	powder
Activity	>100,000U/g
