

Geranium oil

Cat. No. EXTZ-418

Lot. No. (See product label)

Introduction

Description

Geranium oil is extracted via steam distillation from the Pelargonium plant. It is a gentle and floral oil that is known for its calming effects. Geranium oil's anti-inflammatory properties also help it to soothe joint pain and protect our overall health. Besides, Geranium oil is a popular ingredient in many skincare products, it has soothing, tightening properties that can help to reduce signs of ageing and create a more even skin tone. Botanical Name: Pelargonium Graveolens
