Yerba Mate extract

Cat. No. EXTZ-443

Lot. No. (See product label)

Introduction

Description	Yerba mate is a beverage, similar to coffee or tea, that is made from the leaves of Ilex paraguariensis trees. Yerba mate extract contains stimulants and antioxidants that may help prevent and treat obesity and inflammatory diseases.
Applications	As a natural and functional ingredient, Mate Tea Extract is widely used in food, beverages, nutraceuticals, and beauty products for its many health benefits. Helping to boost energy, stimulate metabolism and support the immune system, as well as antioxidant and anti-inflammatory effects, it is an important supplement for a modern, healthy lifestyle.

Product Information
