Creative Enzymes®

Sakura Extract

Cat. No. ESEC-010

Lot. No. (See product label)

Introduction

Description	Researchers have determined that Sakura (cherry blossom) are loaded with two major functional components that could help to promote skin health, namely caffeogyl glucose and quercetin 3-O-glycoside. Clinically, these active compounds have been proven to act as anti-glycation agents with promotion of collagen formation in fibroblasts to deliver anti-ageing effects.

Product Information

Form	Pink Powder
Activity	10:1

Storage and Shipping Information

Storage	Store in cool & dry place. Keep away from strong light and heat.
