Creative Enzymes®

Caspase-9 (Active) from Human, Recombinant

Cat. No. NATE-0816

Lot. No. (See product label)

Introduction

Description	The expressed caspase-9 spontaneously undergoes autoprocessing to yield the subunits characteristic of the native enzyme. Active enzyme purified from E. coliThis product is useful in screening caspase inhibitors for pharmaceutical Applications.
Synonyms	CASP9; APAF-3; APAF3; ICE-LAP6; MCH6; PPP1R56; Caspase-9 (Active); Caspase-9

Product Information

Species	Human
Source	E. coli
Appearance	Lyophilized Powder
Purity	90% (SDS-PAGE)
Activity	~400 units/mg

Storage and Shipping Information

Storage	-80°C
