Saw Palmetto Berry oil

Cat. No. EXTZ-470

Lot. No. (See product label)

Introduction

Description	Saw Palmetto Berry Oil is a commonly used vegetable oil derived from the fruit of the Saw Palmetto. Saw Palmetto is a common palm tree found in the tropics, mainly in Africa and Southeast Asia. Saw palmetto berry oil has a variety of uses, including edible, cosmetic and industrial applications. In the food industry, saw palmetto berry oil is widely used in cooking, baking and food preparation. It has high heat resistance, making it suitable for high-temperature cooking and deep-frying of foods. In cosmetics, saw palmetto berry oil is often used as a carrier oil and can be used in face and body skin care products due to its moisturizing and hydrating properties. In addition, saw palmetto berry oil is used in industrial products such as soaps, candles and lubricants.
