

Medium chain triglyceride (MCT) microencapsulated powder

Cat. No. EXTZ-476

Lot. No. (See product label)

Introduction

Description Medium chain triglyceride (MCT) microencapsulated powder is a kind of powder made from medium chain triglycerides derived from coconut oil or palm kernel oil by special microencapsulation technology. Microencapsulation technology includes emulsification, embedding reinforcement, microencapsulation, and spray drying and other processes. Microencapsulation technology has well improved the stability and water solubility of oil products, and greatly promoted the application of oil products in food, health care products, dairy products and beverages.
