

Artemisia Annua Extract

Cat. No. CEFX-052

Lot. No. (See product label)

Introduction

Description

Artemisia annua extract is a natural organic compound extracted from the Artemisia annua plant. Artemisia annua extract is rich in an active ingredient called Artemisinin, which is widely used as an antimalarial drug. Artemisinin extracts also contain a variety of other bioactive components such as Artemisinin lactone, Artemisinin ethers and Artemisinin sesquiterpenes. These components are believed to possess pharmacological activities such as anti-inflammatory, antioxidant, antibacterial and antiparasitic. Artemisia annua extract has also been used in traditional Chinese medicine to treat malaria, colds, fever and digestive problems. In recent years, Artemisia annua extracts have been studied for the treatment of other diseases such as cancer, diabetes and neurological disorders.
