

Neem extract

Cat. No. CEFX-063

Lot. No. (See product label)

Introduction

Description Neem extract is derived from the neem tree (*Azadirachta indica*), a tropical evergreen tree native to India. It has been used for centuries in traditional Ayurvedic medicine for its various health benefits. Neem extract has antibacterial, antifungal, antiviral, and anti-inflammatory properties. It has been traditionally used to treat skin conditions such as acne, eczema, and psoriasis. It can help reduce redness, inflammation, and itching associated with these skin disorders. In addition, neem extract has been studied for its potential in boosting the immune system and fighting against various infections. It can help kill harmful bacteria and inhibit the growth of fungi, making it useful in treating oral infections, urinary tract infections, and even malaria. Furthermore, neem extract has shown promise in managing diabetes by regulating blood sugar levels. It may also have anti-cancer properties and can help prevent the growth and spread of cancer cells.
