

Porcine Bile Extract

Cat. No. CEFX-077

Lot. No. (See product label)

Introduction

Description Porcine Bile extract, is a natural herbal extract from the gall bladder of pigs. The main components in porcine bile are bile acids, bile pigments, mucins, lipids and inorganic substances.

Applications Porcine Bile extract is widely used in traditional Chinese medicine for the treatment of liver and gallbladder disorders such as jaundice, hepatitis, and cholecystitis. Its bile acid component is known to stimulate bile secretion and promote fat digestion and absorption, which can help improve the function of the digestive system. In addition, porcine bile extract has anti-inflammatory, antimicrobial, antioxidant and detoxifying properties that help boost immunity and maintain good health.
