

Egg Membrane Collagen Peptide

Cat. No. CEFX-085

Lot. No. (See product label)

Introduction

Description Egg membrane collagen peptide, which is obtained from the shell membrane collagen of eggs by enzymatic technology, is a natural source of collagen, chondroitin sulfate, aminosaccharides, hyaluronic acid, small molecule peptides and other complexes, which contain components similar to the composition of articular cartilage, and can be used to replenish all-round the nutrients needed for the health of bones and joints through the synergistic effect of multi-nutrient components, which is beneficial to the repair of joints or the health care of joints.

Applications 1. Increase skin elasticity 2. Hydrates and smoothes skin 3. Brightens skin tone

Product Information

Source	Egg Membrane
Appearance	Off-white powder
Purity	90%
Solubility	Water-soluble

Usage and Packaging

Package 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

Storage and Shipping Information

Storage Store in a cool, ventilated and dry place, avoid direct sunlight.
