Plantain Extract

Cat. No. CEFX-114

Lot. No. (See product label)

Introduction

Description	Plantain extract is a natural plant extract derived from plantain. It mainly contains a variety of active ingredients, including flavonoids, polysaccharides, terpenoids, etc. Plantain extract has a variety of benefits and actions. Plantain extract has anti-inflammatory and antimicrobial properties, which can effectively inhibit the growth of bacteria and viruses, and have a certain therapeutic effect on infectious diseases. Plantain extract has analgesic and antipyretic effects, can relieve pain and fever symptoms. Plantain extract also has antioxidant and antitumor effects, which can prevent free radical damage and inhibit the growth of tumor cells.
Applications	Plantain extract is widely used in pharmaceuticals, nutraceuticals and cosmetics. It is often used in the manufacture of products such as anti-infective drugs, anti-inflammatory drugs, pain-relieving drugs and anti-aging cosmetics. In addition, Plantain extract can also be used as herbal medicine, food additive and nutraceutical raw material.
