Tremella Fuciformis Extract

Cat. No. CEFX-129

Lot. No. (See product label)

Introduction

Description	Tremella Fuciformis, also known as white fungus, snow fungus, is a traditional medicinal fungus, known as "the crown of the fungus".Tremella Fuciformis is rich in natural properties of gelatin, long-term use can be emollient, has a very good cosmetic effect. The main active ingredient of Tremella Fuciformis extract is Ginkgo biloba polysaccharide. Tremella polysaccharides (TP) has a good moisturising effect, but also has antioxidant and allergy-relieving properties. Tremella Fuciformis extract is often used as a moisturising agent in cosmetics, and is known as "plant hyaluronic acid".
