

Rye Protein Hydrolyzed

Cat. No. CEFX-133

Lot. No. (See product label)

Introduction

Description The product obtained by hydrolysis of plant material with high protein content (Rye) has good water solubility and a molecular weight of 500-3000 Dalton.

Product Information

Form Powder

Purity 90%

Solubility Water soluble

Storage and Shipping Information

Storage Keep sealed, away from light and in a dry place (recommended storage temperature below 25°C).
