Creative Enzymes®

Hydroxypropyl Beta Cyclodextrin

Cat. No. EXTZ-479

Lot. No. (See product label)

Introduction

Description	Hydroxypropyl Beta Cyclodextrin is an ideal solubilizer and pharmaceutical excipient for injections. It can improve the water solubility of poorly soluble drugs, increase drug stability, improve drug bioavailability, and increase the efficacy of pharmaceuticals. It can also adjust or control the release rate of drugs and reduce drug side effects.
