

Turtle Peptide

Cat. No. CAFP-003

Lot. No. (See product label)

Introduction

Description Turtle Peptide is a small molecule peptide extracted from turtle, which is the essence of turtle nutrients concentrated. Turtle peptide is rich in collagen and 18 kinds of amino acids, including lysine, which is necessary for the human body but cannot be produced by itself, as well as other essential amino acids. These ingredients make turtle peptide a valuable nutrient with a variety of biological activities that can promote cell growth, regulate cell function, promote protein absorption and synthesis, as well as promote the body's absorption of minerals and other trace elements.

Applications Turtle peptide is suitable for people who avoid sugar, have low immunity, stay up late, and socializing, with anti-fatigue and anti-hypoxia properties. It can enhance immunity and help weak and sick people to recover and recuperate after illness.

Product Information

Source	Turtle
Appearance	Off-white powder
Molecular Weight	<1000 Da
Purity	99%
Solubility	Water-soluble

Usage and Packaging

Package	1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum
----------------	---

Storage and Shipping Information

Storage	Store in a cool, ventilated and dry place, avoid direct sunlight.
