

Bovine Spleen Peptide

Cat. No. CAFP-004

Lot. No. (See product label)

Introduction

Description Bovine spleen peptide is selected from the spleen of buffalo or yellow cattle as raw material, and the small molecule active peptide is separated from the tissue through enzyme digestion technology. These peptides have similar characteristics to the function of the human spleen, and can quickly dissolve in water and directly penetrate the cell membrane and enter the cell nucleus to repair damaged spleen cells.

Product Information

Source	Bovine spleen
Appearance	Off-white powder
Molecular Weight	<1000 Da
Purity	99%
Solubility	Water-soluble

Usage and Packaging

Package 1kg, 5kg, 10kg aluminum foil vacuum bag; or 20kg, 25kg Fiber Drum

Storage and Shipping Information

Storage Store in a cool, ventilated and dry place, avoid direct sunlight.
