

Alisma Orientalis Extract

Cat. No. CEFX-184

Lot. No. (See product label)

Introduction

Description

Alisma Orientalis Extract mainly contains triterpenoids alisol A, alisol B, volatile oil, alkaloids and other ingredients, with the effect of diuresis, clearing dampness and heat. It is clinically used for the treatment of urinary incontinence, edema and distension, diarrhea and urination, phlegm and dizziness, hot and painful gonorrhea, and hyperlipidemia. Its extract is the carrier of various advanced technologies of modern traditional Chinese medicine, and is the main raw material of traditional Chinese medicine preparations. It has incomparable advantages in this respect as it has less toxic side effects and is not easy to produce drug resistance.
