Creative Enzymes®

Special enzyme for protein organic fertilizer

Cat. No. EPOF-001

Lot. No. (See product label)

Introduction

Description	Special enzymes for protein organic fertilizers are high-efficiency biological enzyme preparations made from excellent bacterial strains through liquid deep fermentation and refinement. This product can effectively hydrolyze processed raw materials such as poultry and livestock, seafood raw materials, fish meat and fish processing leftovers or other protein raw materials into small peptides and amino acids, and can be widely used in the protein organic fertilizer processing industry.

Product Information

Form	Powder

Storage and Shipping Information

Storage	Store in a cool, dry place
