

Blended Granule Enzymes for Dishwasher Formulations

Cat. No. CEFX-151

Lot. No. (See product label)

Introduction

Description This product is an enzyme detergent specially formulated for dishwashers, which is a combination of alkaline protease and pectinase enzymes that effectively removes blood stains, oil stains, egg white stains, fruit juices, creamy chocolate stains, and other hard-to-remove stains from tableware and kitchen utensils.

Applications Efficiently and gently removes oil, protein, starch and other organic stains; Self-degrading, energy-saving and environmentally friendly; Gentle washing conditions, low pH and low temperature; Reduces the amount of detergent chemicals used and improves the washing effect at the same time.
