Magnesium citrate

Cat. No. CEFX-153

Lot. No. (See product label)

Introduction

Description	Magnesium citrate is a mixture of magnesium, salt and citric acid, also known as a "saline laxative". It helps to relax the intestines while drawing in more water in the intestines. Helps soften and bulk up stools, making bowel movements easier.
Applications	Bowel cleansing: Before surgery or a bowel exam, your doctor often recommends a bowel cleansing with a dose of magnesium citrate to remove any fecal matter from your intestines, allowing the specialist to get a clear view of your bowel. Constipation relief: Magnesium citrate is also commonly used to relieve constipation. It will increase the amount of water in your intestines, which supports the passage of feces.

Product Information

Appearance	White or yellowish powder
CAS No.	3344-18-1
Molecular Weight	451.11
Solubility	Soluble in water

Usage and Packaging

Package	25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage	2 years under well storage situation and stored away from direct sun light
