Creative Enzymes®

a-Lipoic acid

Cat. No. CEFX-163

Lot. No. (See product label)

Introduction

Description	a-Lipoic acid, also called lipoic acid or caprylic acid, is a powerful antioxidant that helps cells convert glucose into energy in addition to detoxifying the body, warding off skin inflammation and stabilizing blood sugar. a-Lipoic acid is beautifully known as an all-purpose antioxidant because it is soluble in water and fat and can penetrate tissues such as the nervous system and the heart, which are made up mostly of fat and water, and therefore protects them from free radical damage. Lipoic acid also helps the body utilize vitamins E and C more effectively, as well as other antioxidants such as glutathione. This nutrient also allows vitamin B to more effectively convert proteins, carbohydrates and fats into energy.

Product Information

Appearance	Powder
CAS No.	62-46-4
Molecular Weight	206.3182
Purity	98%

Usage and Packaging

Package	25KG/Drum with double plastic bag of foodstuff inside

Storage and Shipping Information

Storage	2 years under well storage situation and stored away from direct sun light
