

Vegan Collagen

Cat. No. CEFX-262

Lot. No. (See product label)

Introduction

Description Biodegradable collagen like peptide provided as powder. Suitable for biomedical products, such as hydrogels, fleeces or sponges and bioinks.

Applications Hydrogels for cell culture and coating, solution for coatings, sponges, fleeces and bioinks.

Product Information

Source Fermented

Appearance Lyophilized powder

Molecular Weight 22.4 kDa

pH Stability 5.5 – 5.7

Usage and Packaging

Package 10g or 50g

Storage and Shipping Information

Storage 2-8°C up to 12 months (retest)
