Creative Enzymes®

Casein (Industrial Grade)

Cat. No. CEFX-271

Lot. No. (See product label)

Introduction

Description	Industrial grade casein, which is a purified yak milk casein made by using high-tech biotechnology and cannot be replaced by other synthetic materials, has excellent bonding, film-forming, bright, emulsifying, stabilizing and other superb properties, and is an ideal green adhesive raw material.
Applications	Widely used in paper tube, cosmetics, leather industry, paint, pigment, paper industry, casein glue, adhesives, safety matches, plastic processing, electrochemistry, textile industry, special cement and other industries. Paper industry: sizing agent, glazing agent, adhesive, etc; Leather industry: leather and artificial leather tanning agents, adhesives, etc., blended fiber finishing agents; Coating: waterproof, fireproof, high-strength, decorative architectural coatings, steel equipment manufacturing and the use of high hardness layer of anti-acid coatings (salt); Plastic processing: processing aids for all kinds of decorative materials.

Product Information

Appearance	This product is non-crystalline, non-hygroscopic material, slightly soluble in water and organic solvents at room temperature, soluble in dilute alkali and concentrated acid, can absorb water.
Stabilizers	Under suitable storage conditions, 12 months from date of manufacture.

Usage and Packaging

Package	Compound kraft paper bag with polyethylene inner film, net weight 25kgs

Storage and Shipping Information

Storage	Store in cool, dry conditions, protected from mold and humidity;.
