Creative Enzymes®

Acetylhexapeptide-8

Cat. No. CECP-004

Lot. No. (See product label)

Introduction

Description	The anti-wrinkle peptide is a bionic peptide that makes the bionic degree of SNAP-25 protein more accurate through target design and scientific simulation, and inhibits the formation of SNARE complex with more excellent effect. At the same time, Acetylhexapeptide-8 can improve the skin aging condition, promote the production of lipids, and restore the skin's firmness, elasticity and luster.
Applications	It is suitable to be added to medical beauty, instant wrinkle removal and other anti-aging maintenance products.

Product Information

Appearance	Clarified clear liquid
Form	Liquid
CAS No.	616204-22-9
pH Stability	5.5-7.5

Usage and Packaging

Package	1kg/bottle

Storage and Shipping Information

Storage	Keep sealed, shaded and cool.
