Creative Enzymes®

Postbiotics for women's health

Cat. No. PSBT-004

Lot. No. (See product label)

Introduction

Description	After consumption, the product reaches the cells of the intestinal tract through a series of transportation systems. The product contains a unique protein carrier that acts as a nutrient transporter, assisting the postbiotic to enter the cells of the small intestine and be absorbed by the body, and then transported through the bloodstream to specific tissues and organs for its effects.
Applications	1. Enhance thymosin and immunity. 2. Improve joint inflammation, promote bone and muscle health, prevent osteoporosis. 3. Moistening skin, elasticity and firmness, preventing wrinkles and spots, enhancing brightness. 4. Strengthen hair, enhance hair shine. 5. Repair weak nails, reduce the risk of nail breakage. 6. Reduce atherosclerosis, promote cardiovascular health. 7. Help lead/aluminum out of the body, reduce nerve damage, such as: Alzheimer's disease. 8. Strengthen bladder muscles, improve urinary incontinence (leakage) symptoms. 9. Tighten vagina, improve vaginal dryness during menopause.
