Astragalus root powder

Cat. No. EXTZ-525

Lot. No. (See product label)

Introduction

Description	Astragalus root powder, commonly known as Huangqi powder, is derived from the dried root of the Astragalus membranaceus plant. It is widely used in traditional Chinese medicine due to its purported health benefits. This fine powder is believed to strengthen the immune system, boost energy levels, and improve overall vitality. Additionally, Huangqi powder is often utilized to support cardiovascular health, aid in managing stress, and enhance the body's natural healing processes.
