

Bifidobacterium lactis 420

Cat. No. PRBT-006-420

Lot. No. (See product label)

Introduction

Description Bifidobacterium lactis 420, as a probiotic, has been confirmed through multiple scientific studies to have potential benefits in regulating immune responses, enhancing intestinal barrier function, controlling body weight, and improving metabolic health. In addition, after supplementation with B420, the abundance of Akkermansia muciniphila in the gut, which is associated with healthy lean body mass, increases, making it a standout among probiotics for healthy weight loss.

Applications Weight control

Product Information

Form powder

Activity 100 billion CFU/g or more

Storage and Shipping Information

Storage Recommend storage at frozen temperature (-18 °C) or lower in original, sealed package away from light.
