

Mulberry powder

Cat. No. EXTZ-529

Lot. No. (See product label)

Introduction

Description Mulberry powder is a natural health food made by drying and grinding fresh mulberries. Mulberries have a sweet taste and vibrant color while being rich in vitamin C, vitamin K, iron, potassium, and antioxidant substances like anthocyanins and polyphenols. Adding mulberry powder to various foods and beverages can not only enhance the appearance of the food but also boost immunity, combat aging, improve skin health, and promote blood circulation.
