Corn Peptide

Cat. No. CEFP-037

Lot. No. (See product label)

Introduction

Description	This product is a small molecule active peptide made from corn protein or corn meal through bio-enzymatic digestion technology. Its molecular weight is small and easy to be absorbed and utilized by human body. It is rich in a variety of essential amino acids and has good nutritional value and functional properties.
Applications	Corn peptide has antioxidant, blood pressure lowering, immunity enhancement, anti-fatigue and other effects, and is widely used in functional foods, health care products, sports nutrition products and pharmaceuticals to help improve health and quality of life.
